~~~~~  
DR. WATKINS'S THOMSONIAN

HARVARD STREET INFIRMARY,

*Opposite 499 Washington Street,*

B O S T O N .

THE Subscriber would inform his friends, patrons, and the public generally, that he yet continues to administer the vegetable medicines on the Thomsonian principle at the above establishment, for all complaints to which mankind are liable. The efficacy of these simples has been tried and proved by innumerable living individuals, who have been healed of all kinds of diseases in every stage of the same, although they have been abandoned by the regular physicians as incurable. It is unnecessary, in confirmation of this statement, to introduce the certificates of the patients who have been under his care, or the particular disease with which they have been afflicted, as the reader is referred to his advertisements published in the most popular journals of the day, wherein may be found a detail of such complaints and of the mode of treatment thereof.

By a reference to the opinions of some of the most celebrated members of the faculty, the reader must *now be convinced*, that mineral medicines cause the most dreadful consequences; and the proprietor would remark, that in the Thomsonian system *their use* is wholly discarded; his practice being exclusively confined to the administration of botanical simples.

Having, for more than twenty years past, been familiar with their salutary operation on the human frame by prescribing them in all kinds of sickness, in *Europe*, North and South America, including the West India Islands, and having also, during his residence in Boston the nine months past, met with decided success, not having lost one patient out of a large number, in the same course of practice, he respectfully invites the afflicted patient to place himself under his care, and in so doing he confidently assures him that whatsoever may be the character of his disease, he may speedily be restored to sound health,—if timely application be made.

For sale at the above establishment, pure Thomsonian

---

Medicines, embracing all the vegetables used in the composition. None are genuine but those prepared by the author of the system and his legally empowered agents. Also, the last edition, 1835, of the *Guide to Health and Narrative of the Life of Doctor Samuel Thomson*, which contains many new and interesting articles. Likewise, *Robinson's Lectures*, a scientific work, explanatory of the system. No alteration in the diet of patients is required. Nor is it necessary, as heretofore, for invalids to bring with them a change of linen to take a single course of medicine, as always a clean bed dress is provided for the person. To prevent contagion, India Rubber coverings to the mattress or beds, together with two under sheets, are furnished clean, at each course of medicine. Cholera Syrup and Wine Bitters, first rate articles, sold twenty-five per cent. less than by those unauthorized. Corn ointment, an invaluable article, prepared by Doctor Samuel Thomson, also, for sale as above.

ANDREW WATKINS, *Botanic Physician and*  
*Agent for DOCT. SAMUEL THOMSON.*

## MARINE TELEGRAPH FLAGS.

### TO THE COMMERCIAL INTERESTS OF THE UNITED STATES.

**THE** Marine Telegraph Flags being extensively adopted by vessels of all descriptions, has induced the United States Government to furnish the public ships and revenue cutters with them, for purposes of conversation with the commerce of our country. The several Semaphoric Telegraph stations in our seaports, by the use of these flags, have been the means of relieving distressed vessels; and vessels being furnished with these facilities, opportunities for communication at sea frequently occur, when all other intercourse is impossible.

The undersigned request your recommendation and patronage towards the adoption of the Marine Telegraph Flags, whereby the safety, comfort and convenience of the commercial interests are promoted and more effectually secured.

A. A. Leggett, Conductor of the Telegraph at Merchants' Exchange, New York; John L. Dudley, Conductor of Telegraph at Baltimore, Maryland; Ira Wheeler, in behalf of heirs of James M. Elford, Conductor of Telegraph at Charleston, S. Carolina; Lemuel Moody, Conductor of Telegraph at Portland, Maine; John R. Parker, Conductor of Telegraph at the Observatory, Boston.

## SCHOOL FOR MORAL DISCIPLINE.

MR. E. M. P. WELLS, finding it necessary to enlarge his school, has purchased the Joy house, formerly on Beacon street, and now situated on South Boston Point, opposite Fort Independence, commanding a beautiful view of the harbor, islands, and shipping, and enjoying a most pure and exhilarating atmosphere.

**MORAL EDUCATION.**—This is the PECULIAR OBJECT of this school—to educate boys, not as if they were *physically* but *morally* men—men in infancy ; and to learn them to act now on those same principles which they must or ought to act on in future life ; to form (or if need be to re-form) a moral character ; to treat man as if he had a soul as well as a body, a heart as well as an intellect ; and as if existing not *for this* world, but *in this world for another* ; not only as if he *were* the son of man, but as if he *must be* the son of God ; not only to *give* power to the intellect, but to *direct* it ; not simply to have the intellect under the control of the heart, but to bring that heart under the influence of those great moral principles which form the Government of God, the holy influence of OUR FATHER.

In **INTELLECTUAL EDUCATION**—the object is, to learn to think ; to reason ; to investigate ; to teach ; and discover for one's self, rather than to write down on the voluminous pages of the memory, the acquirements of others, without making them our own.

**PHYSICAL EDUCATION** is a principal subject of practical as well as theoretical attention in food, exercise, air, bathing, the organs, and the habits. It is viewed as important, not simply for its effects on the body, but chiefly for its effects on the mind. *Most of the vices in life, and of the corruption of the soul, arise from a neglect of physical education.*

**STUDIES.**—The regular branches of which, are Reading, Speaking, Writing, Composition, Arithmetic, Geography, History, Grammar, and Lectures and Lessons in Natural History, Natural and Moral Philosophy, Chemistry, Botany, and Geology. The extra branches are Latin, Greek, French, Phrenology, Music, Drawing, Book Keeping, Riding and Fencing.

The **GOVERNMENT** is moral suasion, rather than physical force. To show the reason for, and thus lead the mind to approve of, and to pursue the good.

---

**RECREATIONS** are allowed in games of reflection, contrivance, agility, and athletic effort, but not of chance. Exercises in walking, gymnastics, barge rowing, boat-sailing and swimming.

**CONDITIONS.**—Boys are received for a period not less than one year, and not under the age of ten years.

The boys, while members of the school, must be wholly under the direction of Mr. Wells.

During the first month a boy is not to receive visits except by invitation, nor to make visits but by *particular* permission.

If in good standing, a boy may visit his friends in the city every other week.

The expenses are three dollars a week, (the first fifty of which is paid in advance) which pays all expenses for board, tuition, clothing, books, stationary, washing, mending, medical attendance, &c. The extra studies are five dollars per quarter for each branch.

If parents wish to furnish their son's clothing, they can have cloth garments made from a pattern, by Mr. John Wilson, Court street, who will also furnish the patterns for the other garments.

On the quarterly bills, returns will be made on the following subjects:—Disposition, Principles, Behaviour—marks, Dr. and Cr., Study, Habits, General Improvement.

As regular vacations are chiefly for the convenience of the instructor, they are dispensed with, and quarterly visits out of the city, arranged to suit the convenience of individuals.

Boston, April 2, 1835.

## MASS. BOTANIC INFIRMARY,

**OR THOMSONIAN HOSPITAL**—for the reception of the sick and lame, situated on the bank of the Boston and Worcester Railroad, No. 554 Washington st. with a view of the railroad and surrounding country on the West, and Boston Harbor, its shipping and Islands, on the East. The Infirmary has been additionally fitted up in a style not surpassed by any other in the State, for convenience and comfort. The Rooms spacious and airy; the prospect on the East and West very pleasant. The whole establishment will be under the personal care

~~~~~

of Dr. J. A. Brown, formerly of the Tremont Infirmary, and for some years past Botanic Physician in the city, during which time he attended or prescribed for several thousand persons, to whom Patients can be referred for further information.

P. D. BADGER, a Proprietor, who has had considerable acquaintance with the system, will superintend the male department, together with other faithful and experienced assistants.

The subscribers pledge themselves that nothing shall be wanting on their part to make all who may favor them with a call, both comfortable and perfectly satisfied.

All charges for attendance will be refunded where the medicine does not operate as recommended.
